

I am writing to express how much we have enjoyed K-Love radio station 92.1 in the Austin area! We hope it will not be replaced on the radio by something else. The station is the only radio in our area that is ALWAYS uplifting and safe for children to listen too! You don't have to worry about obscene statements by DJ's or in the played music lyrics. We especially listen to K-Love in the car and would be lost without it! Please know that our community too would miss out greatly from its positive Christian messages and inspirational music. We need K-Love to stay on the air in the Austin area, for without it there will be a great void!!!
